

Tales from the Hood by Micheal Buckley

By Jack Wooldridge

In this installment to the Sisters Grimm series, the fate of Mr Canis, a nice old man who just happens to channel the psychotic spirit of the Big, Bad Wolf, is decided. The Queen of Hearts puts together a jury of her buddies, with a mental patient as the judge. But even though Mr Canis, who is becoming more and more wolf-like every day, has given up on himself, the Grimm family refuses to give up. They hire Robin Hood and his merry men as their lawyers, and prepare to make a case for the Wolf. But that isn't going to be easy, as most of the folks in town are members of the Scarlet Hand, who want to rule the world (don't they all). Along the way they dig up evidence on the Wolf and Mr Canis, and finally discover exactly what happened when little Red Riding Hood went to her Grandmother's house in the woods.

I really enjoyed this book and I am looking forward to reading the next one in the series.
