

A review of Hiawatha

I really enjoyed going to see the puppet show Hiawatha. The first thing I loved about it was the storyline. It was very engaging and there wasn't a dull moment. The voices were very good too. The little spirits with their squeaky voices and the 'whizzzzzz' noise they made when they moved had me laughing out loud. The puppets were funny and very well constructed. My favorite part was the part with the funny little cave spirits. They were hilarious! I give this puppet show 10/10.
