

A review of the Quiet Valley Harvest Festival

I really enjoyed the Quiet Valley Harvest Festival. However, instead of just telling you straight what I liked about it, I will stray from the usual form. I will make a list of The Top Five Things I Liked About The Quiet Valley Harvest Festival.

The Top Five Things I Liked About The Quiet Valley Harvest Festival

- **5.** The food! The potatoes were grown on the farm, the milk in the ice cream was from their cow, and the meat was cooked over an open spit. They tasted good too!
- **4.** I enjoyed looking at the people working on jobs such as smithing, wool-dying and basket weaving.
- **3.** The crafts were excellent as well. I liked the quilting.
- **2.** I liked the Civil War reenactors. They were very interesting. Even though I know a lot about the Civil War already, you never stop learning.
- **1.** The country bands and Gospel singers were very good too.
